Dear Mr. Weisberg,

As a fellow assassination researcher, I would like to introduce myself. I am 27 years of age, and have been a very interested observer of the whole controversy for some fifteen years now. I've read most every book on the subject and have been exposed to some crazy "scenarios" on what really happened. But your writings have stood out as being the most cogent and responsible of them all.

There is one problem though. Not all your books have been available for research in this area. I have been able to procure "Whitewash IV", which is the only one I could find. (That was located in an obscure country library, 65 miles away!). I would like to know from you, if I would be able to purchase the following from you, and for how much:

- Whitewash I, II, III. (esp. "Photographic Whitewash")

- Post-Mortem

admire the work you and your attorneys, Jim Lesar and Bernard Fensterwald, have done to try force the government to expose the truth. It is citizens like yourself who keep us informed, rather than in the dark. May you have luck in future endeavors against that colossus known as "big government". Thank you very much for your assistance.

Sincerely,

Anthony Cavalla
